

ClearLine DNA – Legal DNA Testing Process

This process ensures your results are accepted for legal use.

Step 1: Booking

- Appointment is arranged
 - All participants must attend
-

Step 2: Identity Check

- Valid photo ID is required
 - Details are recorded
-

Step 3: Sample Collection

- Samples are taken using cheek swabs
 - A trained collector oversees the process
-

Step 4: Documentation

- Consent forms are signed

- All details are recorded carefully
-

Step 5: Secure Packaging

- Samples are sealed and labelled
 - Chain of custody forms are completed
-

Step 6: Laboratory Testing

- Samples are sent to an accredited laboratory
 - Testing is carried out securely
-

Step 7: Results

- Results are sent by secure email
 - Reports are suitable for court or official use
-

Important

- All participants must follow the process
- Missing ID or incorrect details may delay results
- This process ensures accuracy and legal acceptance
